SUMMARY

Web Developer who specializes in front and back-end web development with almost three years of professional web development experience. Solid project-level experience in developing, maintaining and designing various websites for WordPress and Adobe CC products. Well-versed in numerous languages such as PHP, JavaScript, and HTML. Strong background in different design tools such as Adobe Photoshop and Illustrator. Obtained an Associates in Arts in Web Development and Design with a 3.9 GPA.

PROFESSIONAL WORK EXPERIENCE

Web Developer

Quantum Dynamix | 2015-Present

- Successfully developed, designed, and maintained various websites as assigned
- Collaborated with teammates to tackle/manage large or complex web projects
- Developed and designed various marketing programs (e-mail newsletters, printed surveys, and advertisements)
- Manipulated databases in order to fulfill complex functionalities based on management or client's requests
- Managed multiple tasks or projects even under extremely tight deadlines
- Worked on different websites to improve SEO scores and accessibility purposes

Web Content Intern

Lancaster Catholic High School | 2015

- Updated some of the school's web page contents with their website's built-in content management system by using HTML, CSS, and JavaScript and made them responsive (compatible for mobile & tablet devices)
- Troubleshoot the school's mobile app with glyph mobile
- Used Adobe programs to edit photos and graphics for marketing purposes

Owner

Tina Conrad Photography | 2011-Present

- Photographed weddings, portraits, landscapes, products and many more
- Edited photos in Adobe Lightroom and Photoshop
